

As a dedicated B.Tech student specializing in **AI and Data Science**, I have honed my skills through various projects that showcase my expertise. Notable projects include developing an AI-based Chatbot named "Chat SoC" for a Machine Learning mini-project, creating a responsive web page for college event hosting named "Varunah," and implementing Image Enhancement using Deep Learning for the project "Deep Vision." Currently, I am focused on crafting a Personal Website to showcase my portfolio. These experiences demonstrate my strong grasp of Machine Learning, Web Development, and Deep Learning techniques.

Experience

Jul 2023 – Aug 2023

Front End Developer | Three Baboons Technology, Cuddalore, Tamilnadu

- Collaborated with a four-person team to develop user-facing websites using HTML, CSS, JavaScript.

Education

Expected graduation May 2025

bachelor of Technology (B.tech) in AI & Data Science

Kathir College of Engineering, Neelambur, Coimabtore – 641062.

Jun 2020 - Mar 2021

+2 / HSE in Biology

Sacred Heart Hr. Sec School, Iruppukurichy, Virudhachalam - 607804.

Skills

Tensorflow

Flask

Scikit-learn Library

Pandas Library

Keras Library

OpenCV Library

Machine Learning (ML)

Deep Learning (DL)

Version Control

Web Development

Bootstrap

React.js

Responsive Design

Prototyping Tools

Figma

Adobe Illustrator

Certifications

Python

Deep Learning

Auto CAD

UI/UX

Languages

Tamil

English
